

Our team is merging two existing journals, *WIREs Systems Biology and Medicine* and *WIREs Developmental Biology*, into

WIREs Mechanisms of Disease

Focusing on these disease topics:

Cancer
Cardiovascular Diseases
Congenital Diseases
Immune System Diseases
Infectious Diseases
Metabolic Diseases
Neurological Diseases
Reproductive System Diseases

Subtopics in:

Genetics/Genomics/Epigenetics
Molecular and Cellular Physiology
Stem Cells and Development
Environmental Factors
Biomedical Engineering
Computational Models -
led by editor **Philip Maini**,
University of Oxford

WIREs Mechanisms of Disease will initially retain

- *WIREs Systems Biology and Medicine*'s Impact Factor of 4.28
- Indexing by MEDLINE/PubMed, the Web of Science Group (formerly ISI), Chemical Abstracts Service, and Scopus
